About myself

Frontend Developer (Angular & React) | SaaS & Scalable UI Systems

Frontend Developer with experience in building and maintaining web applications using Angular. Skilled in API integration, clean architecture, and developing scalable user interfaces.

Experienced in Agile environments, with strong problem-solving and debugging skills. Motivated to contribute to digital services and system development in public and enterprise environments.

Work experience

Software Operations Specialist (Contract) - Flex Business Solutions | 05/01/2026 - Current | Tirana, Albania

- Analyzed and validated complex system workflows and business logic
- Performed testing and identified technical issues in production environments
- Collaborated with developers to troubleshoot and resolve system problems
- Ensured application stability and supported continuous improvements
- Contributed to debugging and system performance monitoring

Business or sector Information and communication

Front-End Developer - InterMedia SHPK | 15/03/2023 - 30/12/2025 | Tirana, Albania

- Developed and maintained scalable web applications using Angular
- Designed modular component architecture for large-scale systems
- Integrated REST APIs and managed asynchronous data flows
- Collaborated with backend teams on API design and data exchange
- Improved application performance and optimized rendering processes
- Contributed to debugging, issue resolution, and system stability
- Participated in Agile development processes and team collaboration

Business or sector Information and communication

Web Design - SmartUP Digital | 01/03/2022 - 30/06/2022 | Tirana, Albania

- Developed responsive user interfaces using HTML and CSS
- Translated UI/UX designs into functional web components
- Collaborated with teams to improve usability and interface consistency

Business or sector Information and communication

Education & Training

Master's in Computer Software Engineering | Tirana Business University College | 01/11/2024 - Current | Tirana, Albania

Focus: Software architecture, system design, and advanced web technologies.

Level in EQF: 7 | Website: <https://tbu.edu.al/en/home-en/>

Bachelor's in Business Informatics | University of Tirana | 15/11/2020 - 01/07/2023 | Tirana, Albania

Focus: Data analysis, business processes, and software development fundamentals.

Level in EQF: 6 | Website: <https://feut.edu.al/>

Language Skills

Mother tongue(s): **Albanian**

	Understanding		Speaking		Writing
	Listening	Reading	Spoken production	Spoken interaction	
English	B2	B2	B2	B2	B2

Skills

Soft Skills / Professional Skills | Time Management | Analytical Thinking | Problem Solving | Communication Skills | Teamwork & Collaboration

Technical Skills | Frontend: Angular, TypeScript, HTML5, CSS3 | Backend & Data: REST APIs, SQL (basic), API Integration | Programming Concepts: Object-Oriented Programming (OOP), Data Structures (basic) | Tools & Technologies: Git, GitHub, Agile (Scrum, Jira) | Testing & Debugging: Debugging, Issue Resolution, Functional Testing | Performance: Web Performance Optimization, Responsive Design

Projects

E-table.al (Angular 17 + Bootstrap + Java Spring Boot) | 01/03/2025 - 31/12/2025

- Architected frontend structure using Angular 17
- Designed scalable component hierarchy
- Integrated Spring Boot APIs
- Implemented role-based access flows
- Managed performance and production deployment

<https://e-table.al/>

Easybill.al Project Manager & Front-End Developer | 01/04/2024 - 01/03/2025

- Developed core Angular modules for fiscal system
- Implemented complex form workflows and data validation
- Coordinated feature delivery in Agile environment
